

Am12  
EPC 71 (4-14-05)

SHOWING AMENDMENTS IN ALL PENDING CLAIMS IN PRESENT  
APPLICATION

What is claimed is:

1. (Presently Amended) In a computer system including a clearinghouse component, a nonprofit component having one or more nonprofits, a supporter component having one or more supporters, and a merchant component having one or more merchants, with the clearinghouse component connecting the other three components via a variety of entry terminals, the clearinghouse component having recorded therein an individual identification number (ID) for each of the one or more supporters and identifications of each of said one or more nonprofits and said one or more merchants, a computerized method comprising:

in said computer system, at an entry terminal of a merchant in a transaction, entering and recording an ID and an amount spent by a supporter at the merchant;

~~in said computer system, having the entry terminal of the merchant record, in computer code, the ID as well as the amount of dollars spent in the transaction;~~

uploading the ID and the amount entered to a central clearinghouse, wherein a program in said clearinghouse component has recorded therein, in computer code, a determination by said merchant of the amount of rebate available from said merchant;

calculating and deducting in the central clearinghouse rebates determined by said merchant on the basis of purchases of the supporter from said merchant and to be paid by the merchant ~~to the nonprofit~~; and

~~deducting from the purchases of the supporter from said merchant the calculated rebates determined by the merchant and~~ in the central clearinghouse forwarding to an account of said nonprofit the calculated and deducted rebates to ~~be paid by the merchant~~

~~to said nonprofit~~ a nonprofit selected by the supporter as entered in the central clearinghouse.

2. (Presently Amended) A computerized method of accumulating credits for one or more organizations, comprising:

recording assigned identifications to one or more supporters, one or more merchants, and one or more organizations ~~affiliated with the supporters and merchants during transactions between one or more supporters and one or more merchants;~~ in a processor system;

in the processor system associating the identification of a supporter ~~and with a merchant~~ and associating a supporter with an affiliated organization in response to each transaction between a merchant and a supporter;

in the processor system deducting and recording rebates determined by the merchant and to be paid by the merchant ~~to the affiliated organization,~~ from a purchase of the supporter from said merchant in a transaction; and

~~crediting, in computer code, to an account of the organization~~ with the processor system, crediting the rebate deducted from purchases of the supporter from said merchant in said transaction ~~between said supporter and the merchant, and to be given to the organization.~~ to an organization affiliated in the processor system by said supporter.

3. (Presently Amended) A method as in claim 2, wherein the steps of recording assigned identification are performed at a remote terminal of a merchant; and

the steps of associating, deducting, and ~~transmitting~~ crediting are performed in the processor system of a central clearinghouse.

4. (Presently Amended) A method as in claim 2, wherein the organization is a nonprofit body, the one or more supporters shop at the one or more merchants, and the one or more merchants agree to have the processor system pay the rebates of the merchant to the nonprofit body determined by the purchaser.

5. (Presently Amended) A method as in claim 2, further comprising assigning identifications to each of said one or more supporters, to each of said one or more merchants, and to each of said one or more organizations.

6. (Presently Amended) A method as in claim 3, wherein each the step of recording includes uploading each transaction to said clearinghouse and the step of crediting includes downloading accumulated rebates to said ~~remote terminals at said one or more merchants~~ organizations.

7. (Presently Amended) A computerized method comprising the steps of:

maintaining, in a system and in computer code, individual identifications assigned to one or more organizations and individual identifications assigned to one or more ~~affiliated supporters~~ supporters and individual identifications assigned to one or more merchants;

in the system and in computer code, maintaining a schedule of rebates determined to be contributed by each of the one or more ~~merchants due to each of the one or more~~ organizations from each of the merchants;

in the system, collecting from the merchant, in computer code, during a transaction between a supporter and a merchant, the identifications of the supporter and the merchant;

calculating, in computer code, the rebates due from the ~~merchant to the~~ organization; and

~~in computer code, the system, crediting to the one or more organizations, the amount of rebates determined by the one or more merchants and due merchants, to the one or more organizations from each of these selected by the one or more supporters.~~

8. (Presently Amended) A computerized method, comprising:

in computer code, maintaining in a clearinghouse computer network, identification of merchants, identification of supporters associated with the merchants, and identification of nonprofit organizations selected by the supporters;

~~in computer code, maintaining in a clearinghouse computer network identification of merchants, identification of supporters associated with the merchants, and identification of nonprofit organizations associated with the supporters and the merchants;~~

~~in computer code, maintaining in said clearinghouse computer network a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates by from the merchants by said clearinghouse computer network to said nonprofit organizations; and~~

~~in computer code, having payments credited, on the basis of said transactions and said said clearinghouse computer network crediting rebate calculations determined by said merchants, from said merchants to said nonprofit organizations selected by said supporters.~~

9. (Presently Amended) A method as in claim 8, wherein said clearinghouse computer network ~~includes~~ is connected to remote terminals of the merchants, and the step of maintaining identification of supporters includes enrolling of supporters associated with the merchants and is performed at the remote terminals of the merchants; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates by the merchants to said nonprofit organizations, is performed in at the central clearinghouse.

10. (Presently Amended) A method as in claim 9, wherein the nonprofit organization is a nonprofit body, the supporters shop at the merchants, and the merchants agree to have the central clearinghouse pay the rebates to the nonprofit body.

11. (Presently Amended) A method as in claim 9, wherein the step of having payments credited includes uploading each transaction to said clearinghouse and downloading accumulated payments ~~credited~~ to said remote terminals at said nonprofit organizations.

12. (Presently Amended) A method as in claim 8, wherein said clearinghouse computer network includes remote terminals of the nonprofit organizations, and the step of maintaining identification of supporters includes enrolling supporters associated with the nonprofit organizations and is performed at ~~from~~ remote terminals of the nonprofit organizations; and

information concerning enrolling supporters is uploaded by said remote terminals of the nonprofit organizations to a database in said central clearinghouse computer network.

13. (Presently Amended) A method as in claim 12, wherein said clearinghouse computer network includes a central clearinghouse, said transactions define shopping activity of said supporters, and said payments represent calculated rebates, and said clearinghouse downloads reports on the shopping activity and calculated rebates due said nonprofit organizations to remote terminals operated by the nonprofit organizations.

14. (Presently Amended) A method as in claim 8, wherein said clearinghouse computer network includes remote terminals operated by said supporters and said step of maintaining identifications of supporters includes supporters using said remote terminals to enroll themselves and select a nonprofit organization that will receive payments based on the calculated rebates; and

information concerning said enrollment is uploaded ~~by~~from said remote terminals to a database in said central clearinghouse computer.

15. (Presently Amended) A method as in claim 14, wherein said clearinghouse computer network includes a central clearinghouse that downloads reports on the transactions in the form of shopping activity and calculated rebates ~~due~~credited to said nonprofit organizations to remote terminals operated by said supporters .

16. (Presently Amended) A method as in claim 8, wherein said clearinghouse computer network includes remote terminals of the nonprofit organizations, and the step of maintaining identifications of supporters associated with the nonprofits organizations includes recording the identifications and is performed ~~at~~from the remote terminals of the nonprofit organizations; and

said recording constitutes enrollment information and is uploaded by said nonprofit remote terminals to a database in said central clearinghouse computer.

17. (Presently Amended) A method as in claim 12, wherein said clearinghouse computer network includes a central clearinghouse that downloads reports on the shopping activity and calculated rebates due said nonprofits to remote terminals operated by the nonprofit organizations.

18. (Presently Amended) A method as in claim 8, wherein said clearinghouse computer network includes remote terminals operated by supporters to enroll themselves and to select a nonprofit organization that will receive the calculated rebates; and

said enrollment information is uploaded by said remote terminals to a database in said central clearinghouse computer.

19. (Presently Amended) A method as in claim 14, wherein said clearinghouse computer network includes a central clearinghouse that downloads reports on the shopping activity and calculated rebates due said nonprofits to remote terminals operated by said supporters.

20. (Presently Amended) A method as in claim 8, wherein said process of maintaining the identification of the merchants, identification of the supporters, and identification of the nonprofit organizations includes enrolling of the merchants, of the supporters, and of the nonprofit organizations, as well as recognizing the merchants, the supporters, and the nonprofit organizations during said transactions.

21. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes remote terminals at the nonprofit organizations, and the enrolling of supporters associated with the nonprofit organizations is performed at the remote terminals of the nonprofit organizations; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates byfrom the merchants by the central clearinghouse to said nonprofit organizations, is performed in the central clearinghouse.

22. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes remote terminals at the nonprofit organizations, and the maintaining identifications include enrolling of supporters and the merchants and are performed atfrom the remote terminals of the nonprofit organizations; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates ~~by~~of the merchants ~~by the~~central clearinghouse to said nonprofit organizations, are performed in the central clearinghouse.

23. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes remote terminals of the supporters, and the steps of maintaining include enrolling of nonprofit organizations~~and~~ are performed at the remote terminals of the supporters; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates by the merchants to said nonprofit organizations, are performed in the central clearinghouse.

24. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes remote terminals at the supporters, and the steps of maintaining include enrolling of nonprofit organizations associated with the merchants and are performed at the remote terminals of the supporters; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates ~~by~~from the merchants ~~by the~~central clearinghouse to said nonprofit organizations, are performed in the central clearinghouse.

25. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes a central clearinghouse, and the steps of maintaining include enrolling of supporters associated with the nonprofit organizations and are performed at the central clearinghouse; and

the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates ~~by~~from the merchants by the central clearinghouse to said nonprofit organizations, are performed in the central clearinghouse.

26. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes a central clearinghouse, and the steps of maintaining include enrolling of merchants associated with the supporters and are performed at the central clearinghouse; and

the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates ~~by~~from the merchants by the central clearinghouse to said nonprofit organizations, are performed in the central clearinghouse.

27. (Presently Amended) A method as in claim 15, wherein said clearinghouse computer network includes a central clearinghouse, and the steps of maintaining include enrolling of supporters associated with the merchants and nonprofit organizations are performed at the central clearinghouse; and

said clearinghouse computer network includes a central clearinghouse, and the steps of entering a rebate calculation determined by said merchants on the basis of transactions with said supporters, for payment of rebates ~~by~~from the merchants by the central clearinghouse to said nonprofit organizations, are performed in the central clearinghouse.

28. (Presently Amended) A method as in claim 1, wherein the clearinghouse component ~~having~~has recorded therein in computer code the determination of said merchant of the amount of rebate available from said merchant, further including the determination of said merchant of the nonprofits to receive rebates from said merchant,

the supporters who qualify for rebates by said merchant, and the required activity needed to qualify for a rebate; and the step of calculating in the central clearinghouse rebates determined by said merchant on the basis of purchases of the supporter from said merchant and to be paid ~~by~~from the merchant by the central clearinghouse to the nonprofit includes agreeing on the supporters who qualify for rebates by said merchant, and the required activity needed to qualify for a rebate.

29. (Presently Amended) A method as in claim 1, wherein said nonprofits enroll supporters, and supporters enroll with one or more merchants.

30. (Presently Amended) A method as in claim 1, further comprising said nonprofits encoding and entering data in said clearing house component to enroll supporters and enroll supporters with one or more merchants where their supporters will shop.

~~30. A method as in claim 1, further comprising said nonprofits encoding and entering data in said clearing house component to enroll supporters and enroll with one or more merchants where their supporters will shop.~~

~~31. (New)~~ 31. (Presently Amended) In a computer system including a clearinghouse component, an organization component having one or more organizations affiliated with one or more supporters, a supporter component having one or more supporters affiliated with one or more of the organizations, and a merchant component having one or more merchants, with the clearinghouse component and the merchant component being connected via one or more entry terminals, said computer system and said components, the clearinghouse component having recorded therein in computer code an individual identification number (ID) for each of the one or more supporters and identifications of each of said one or more organizations and said one or more merchants, the clearinghouse component also having recorded therein in computer code information as to the selected relationship of each of said one or more supporters and said one or

more organizations ~~as well as said one or more merchants~~ with each other, a method comprising:

in said computer system, at an entry terminal of a merchant in a transaction, entering an ID and an amount spent by a supporter at the merchant in computer code;

in computer code, uploading the entered ID and the entered amount to the central clearinghouse, wherein said clearinghouse component has recorded therein, in computer code, a determination by said merchant of the amount of rebate available from said merchant;

in computer code, calculating in the clearinghouse component a rebate determined by said merchant on the basis of the transaction to be paid by from the merchant by the clearinghouse component to the organization component; and

~~in computer code, the clearinghouse component~~ deducting from the amount entered in the transaction from said merchant the calculated rebates determined by the merchant and in computer code the clearinghouse component forwarding to said organization component the calculated and deducted rebates to be paid by from the merchant by the clearinghouse component to said organization on the basis of the selected relationship between the supporters and the organization.

~~32.(New)~~32. (Presently Amended) A method as in claim 31, wherein the rebate to be paid by from the merchant by the clearinghouse component to the organization is calculated at the clearinghouse in computer code on the basis of the amount entered in the transaction.

~~33.(New)~~33. (Presently Amended) A method as in claim 32, wherein the calculated rebate to be paid by from the merchant by the clearinghouse component is also calculated at the clearinghouse in computer code on the basis of amounts in prior transactions by the consumer at the merchant.

~~34.(New)~~34. (Presently Amended) A method as in claim 33, wherein the rebate to be paid ~~by~~from the merchant by the clearinghouse component is also calculated on the basis of arrangement with the organization component.

~~35.(New)~~35. (Presently Amended) A method as in claim 31, wherein the organization component is a nonprofit component having a plurality of nonprofits.

~~36.(New)~~36. (Presently Amended) A method as in claim 31, wherein said organization component includes one or more organizations ~~which are nonprofits~~each of which is a nonprofit.

~~37.(New)~~37. (Presently Amended) A method as in claim 31, wherein the organization component includes a nonprofit body, the one or more supporters shop at the one or more merchants, and the one or more merchants agree to pay rebates from the merchant by the clearinghouse component to the nonprofit body.

~~38.(New)~~38. (Presently Amended) A method as in claim 31, wherein the step of forwarding includes downloading, in computer code, data concerning accumulated rebates to the merchant.

39. (Presently Amended) A method as in claim 31, wherein each transaction defines shopping activity, and said clearinghouse component downloads reports on shopping activity and the step of forwarding includes sending reports, in computer code, of rebates to the merchant.

~~39.(New)~~ A method as in claim 31, wherein each transaction defines shopping activity, and said clearinghouse component downloads reports on shopping activity and the step of forwarding includes sending reports, in code, of rebates to the merchant.

~~40.(New)~~40. (Presently Amended) A method as in claim 31, wherein the step of uploading occurs on-line during a transaction.

41. (Presently Amended) A method as in claim 31, wherein the step of uploading occurs on a batch basis at a time other than a transaction.

~~41.(New) A method as in claim 31, wherein the step of uploading occurs on a batch basis at a time other than the transaction.~~

~~42.(New)~~42. (Presently Amended) A method as in claim 31, wherein the program in said clearinghouse component has recorded therein in computer code a determination of said merchant of the amount of rebate available from said merchant, further including the determination of said merchant of the ~~organization to receive rebates from said merchant,~~amount of the rebate, the supporters who qualify for rebates from said merchant, and the required activity needed to qualify for a rebate; and

the step of calculating in the clearinghouse component rebates includes using the determination by said merchant on the basis of purchases of the supporter from said merchant and to be paid ~~by~~from the merchant by the clearinghouse component to the nonprofit includes and on the supporters who qualify for rebates by said merchant, and the required activity needed to qualify for a rebate.

~~43.(New)~~43. (Presently Amended) A method as in claim 31, further comprising a step of enrolling and establishing a supporter ID using an entry terminal to select one or more organizations that will receive payments based on the calculated rebates; and

information concerning said enrolling step is uploaded, by said entry terminal used during the step enrolling, to a database in said clearinghouse component.

~~44.(New)~~44. (Presently Amended) A method as in claim 42, wherein said clearinghouse component includes a central clearinghouse that downloads reports on the

transaction in the form of shopping activity and calculated rebates due said nonprofit organization to a remote terminal operated by said supporter.

~~45.(New)~~45. (Presently Amended) A method as in claim 44, wherein the step of enrolling a supporter is performed at a remote terminal of an organization; and

information concerning enrolling of the supporter is uploaded by a remote terminal of the organization to a database in the clearinghouse component.

~~46.(New)~~46. (Presently Amended) A method as in claim 44, wherein said clearinghouse component allows a supporter to enroll and to select an organization that will receive the calculated rebates.
